RE: No 2006-107 – WS

Sir

I am very interested in refuting the idea of the United Utility Company, Inc receiving an increase. The prices are not fair to people on a fixed income!!!

This company is only trying to increase their capital. For over 30 years this company, and those like it, have not provided a direct ratio of payment with the amount of water/sewer used. Families that are in small households are over charged compared to those of larger households. Single individuals pay the same as families.

Paying fifty dollars plus a month for sewer is ridiculous, and we also pay water to another company with this total being excessive!

Please place my name on the list.
